The new, efficient way for resellers to request quotes and place orders

Dear e!Sankey Reseller,

To provide you with an even faster and more convenient way of generating offers and processing orders, we have now provided the following online solution for you.

You can register online as a reseller with our distribution partner Cleverbridge under the following link:

<https://store.ipoint-systems.com/1868/purl-esankey-reseller-registration>

We will then activate your reseller account, which you will be informed about by e-mail.

With the reseller ID you have acquired, you can purchase our products at a 15% discount.

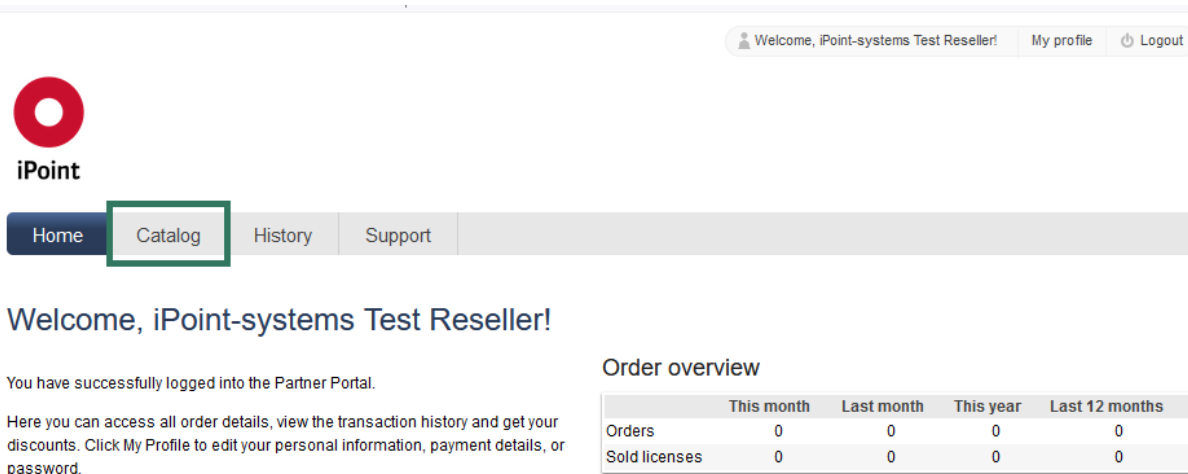

How to login?

After we have activated your reseller account, you can log in to the Partner Portal via the following link:

<https://store.ipoint-systems.com/1868/purl-esankey-reseller-login>

## How to place an order?

In the Partner Portal, you can see the products that have been activated for you via the catalog and add them to your shopping cart:

Welcome, iPoint-systems Test Reseller! My profile Logout

**iPoint**

Home **Catalog** History Support

**Welcome, iPoint-systems Test Reseller!**

You have successfully logged into the Partner Portal.

Here you can access all order details, view the transaction history and get your discounts. Click My Profile to edit your personal information, payment details, or password.

**Order overview**

	This month	Last month	This year	Last 12 months
Orders	0	0	0	0
Sold licenses	0	0	0	0

After you have selected a product, you will be forwarded to the shopping cart.

There you can purchase the software directly online. You can also enter separate billing and delivery addresses and identify the licensee separately.

## How to request a price quotation?

If you are a reseller and need a price offer in advance, please contact us at [ecommerce@ipoint-systems.com](mailto:ecommerce@ipoint-systems.com) and, ideally, let us know the version and number of licenses directly. You will then be sent an individual link to create a quote.

We look forward to working with you as a reseller.

With best regards

Your iPoint Team
