

e!Sankey – reference list

Industry & Consulting

Users from different companies rely on the software e!Sankey by ifu Hamburg GmbH. Here is a brief list of users and their quotes:

EWE Vertrieb AG

"A picture says more than thousand tables. In our analyses we could see, in the truest sense of the word, where energy is consumed. We are able to clearly explain to our customers what the right steps towards increasing energy efficiency are." says Andreas Gerbrand, EWE VERTRIEB AG.

HOCHTIEF Solutions AG

Hochtief is a German construction company based in Essen, North Rhine-Westphalia, Germany. Hochtief is Germany's largest construction company and operates globally, ranking as one of the largest general construction companies in the United States through its Turner subsidiary, and in Australia through a 53.43% shareholding in CIMIC Group. In 2010 it employed more than 70,000 employees across five corporate divisions. Hochtief uses e!Sankey successfully for several years.

WARSTEINER Brauerei Haus Cramer KG

The Warsteiner Group is one of the oldest and most well-known breweries in Germany. Founded in 1753 the family-owned enterprise comprises 120 single companies worldwide. The core competence of the company is the art of beer brewing. Besides the Warsteiner Brewery the Warsteiner Group comprises the Herforder Brewery, the Private Brewery Frankenheim, a holding in the König Ludwig Schloßbrauerei Kaltenberg and the Paderborner Brewery. Warsteiner uses e!Sankey mostly for the visualization of material and energy flows.

URBANA Energiedienste GmbH

Urbana Energietechnik offers the conception and realization of energy solutions, including the dedicated services.

For visualizing energy flows the company, a subsidiary of the Kalo Group, relies on e!Sankey.

Life Cycle Associates

The consulting company Life Cycle Associates from California uses e!Sankey for the visualization of material and energy flows within life cycle assessment projects.

The consulting company has experiences in the sectors of renewable energy and fuels. „e-sankey allows us to present complicated co-product allocation methods in a way that helps clients understand fuel LCA issues. e-sankey is also great for displaying dissimilar mass, energy, and carbon flows through a process.“ – *Stefan Unnasch, Life Cycle Associates.*

Motiva Ltd

Motiva Group is an expert company promoting efficient and sustainable use of energy and materials. Its services are utilised by the public administration, businesses, communities, and consumers.

"We have found e!Sankey very useful in presenting material balances of manufacturing companies in our material auditing procedure. The visual presentation of the masses or costs of material flows is very descriptive and useful for getting an overall picture of the company's flows. The software is also relatively easy to use. The feature which allows linking with Excel-data was important to us when choosing e!Sankey." *Paula Escola, Motiva Oy*

Ingenieurgesellschaft Meinhardt Fulst GmbH

The Ingenieurgesellschaft Meinhardt Fulst GmbH supports and advises administrations, hotels, schools, universities, laboratories and the industry on all questions on technical building equipment. For their consulting projects they also rely on e!Sankey.
